
Version No.: ORG-COR-TU-11
Date: 31 March 11
Scope: Notice to All Operators
supplying Canada (excluding
Aquaculture)

Organic Exports Update

COR Certification

Certification to Canadian Organics Standards

This is to notify you AsureQuality is accredited by the Canadian Food Inspection Agency on the recommendation of the International Organic Accreditation Service to certify agricultural products as organic in accordance with the requirements set out in CAN/CGSB 32.310 and CAN/CGSB 32.311.

Accreditation Number # COR01103044

Please note certification is limited to the products specified in the above requirements and excludes non-agricultural products such as aquaculture.

Anyone operating under the current Stream of Commerce Policy must seek certification to this standard before that policy expires in June 2011. This is the point at which the Canada Organic Office will move from its period of “soft enforcement” to full enforcement.

All operators in the supply chain supplying agricultural product for this market must be certified to this Standard.

If you have not already done so, please complete an “Extension of Scope” form detailing which products require certification to COR.
