

Expiring Exemptions

This is to remind you that two exemptions under MAF Technical Rules are due to expire on 31 December 2011:

6.3.4 – allowance for non-organic pullets for egg production up to 18 weeks where organic stock is unavailable

6.4.10 – allowance of up to 5% non-organic feed for non-herbivores where organic feed is unavailable (as is AQ 5.17.3.2)

From 1 Jan 2012

6.3.4 – Conventional chicks sourced for organic egg production must be under 3 days old

6.4.10 - 100 % organic feed for herbivores and non-herbivores (percentage based on agricultural ingredients)
